■ Support

- **AllPro Vector** strives to be there when you need us.
- Support of your program is something you can count on.
- We stand behind our products 100%
- We keep you informed of shipping details and special requests are no problem for us

■ Strength

- Our chemical engineers are forward thinking providing multiple options of environmentally considerate product choices & formulations.
- My background as a vector biologist and extensive relationships within the vector control communities assures you that your program is informed and in good hands with **AllPro Vector**.

■ Affordability

- **AllPro** is a streamlined company without all that middle management, IT Dept. and fleets of vehicles. This means simply that we can provide top shelf products more reasonably priced.
