

**MAY 2018
SUMMER NEWS BRIEF**

INTRODUCTION

The Mid-Atlantic Mosquito Control Association (MAMCA) is a non-profit educational and scientific professional association which represents mosquito control and public health professionals throughout the U.S. with a particular emphasis in the mid-Atlantic states. Those states are Delaware, Georgia, Maryland, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia. MAMCA is also a Sustaining Member of the American Mosquito Control Association (AMCA). The organization was founded in 1975 and is incorporated in the state of S.C.

Our membership is made up of government, academia, industry, and other interested parties and organizations. The Association publishes an annual Newsletter in the Fall, holds an annual educational conference each year in one of its member states, and maintains a website (www.mamca.org) providing education, networking, products/services, membership, and employment opportunities.

The Summer newsletter supplements the above and is published on a ‘as needed/requested’ basis.

Dennis A. Salmen, REHS
MAMCA Newsletter Editor

MEMBER NOTIFICATIONS

STATE/INDUSTRY DIRECTORS - The term for Board members from North Carolina, Delaware, Tennessee, and Industry will expire in MARCH 2019. Delegates from these states and Industry need to select replacements prior to the Business Meeting at the 2019 Annual Conference in Harrisburg, PA. Terms for State Directors are 3-year while the Industry Director is a 2-year term. If you are a MAMCA member in one of the listed states or Industry and have an interest in serving in this capacity, please contact your listed State/Industry Director (see page 6).

AWARDS - The Mid-Atlantic Mosquito Control Association (MAMCA) has one major award, the R.E. Dorer Award. This award honors Rowland E. Dorer of Virginia, one of the founding members of the association. Mr. Dorer always emphasized the need for a strong regional association. He was the first president of the MAMCA and was the first recipient of the R.E. Dorer Award, although posthumously. The criteria for the Rowland E. Dorer Award are as follows:

- Nominees for the award should be selected on the basis of their exceptional contributions, of whatever type, to mosquito control in the Mid-Atlantic region.
- The nominee must be a member in good standing of the MAMCA.
- Nominees are to be submitted to the MAMCA Awards Committee in writing with justification. Written nominations should include a cover letter from the individual(s) making the nomination and a resume/CV of the nominee's background/career/accomplishments in the MAMCA and mosquito control. At least three (3) accompanying letters of support are requested.

The award is presented at the annual MAMCA meeting and only one award per year will be given. **Nominations for the award are normally solicited in the Fall. Please think of those MAMCA members that are deserving of the Association's highest honor and consider submitting a written nomination and accompanying documents to the MAMCA Awards Committee, c/o Sue Ferguson, fergussc@bellsouth.net.** Any questions regarding the award may also be directed to Sue at the email address listed.

MEMBERSHIP RENEWAL - Membership in the Mid-Atlantic Mosquito Control Association is open to individuals, companies, and students as REGULAR, STUDENT, or SUSTAINING members. Membership must be renewed annually. If you were a member of MAMCA, but have not renewed your membership (and dues) for 2017 or 2018, please consider doing so now. Membership forms may be found at <http://www.mamca.org/membership.htm>.

RECOGNITIONS - The Association would like to recognize the following members for their past service on the MAMCA Board of Directors and in representing their states, where applicable:

Abelardo Moncayo, Past-President (Tennessee)
Ann Herring, State Director (Virginia)
Ture Carlson, State Director (Tennessee)

MAMCA Sustaining Members– 2018

Sustaining members of MAMCA are organizations or companies who provide needed services, products, research, and education to the public health and mosquito control communities. Their support of MAMCA is vital in the association being able to support our memberships' needs and benefits including conference and workshop opportunities for all in the mosquito control profession. For information on contacting any of the organizations below, please see the MAMCA website LINKS page (<http://www.mamca.org/links.htm>) where links to each of their websites are provided.
